AIR 1
Karishma Hotwani

I have known Suraj sir to be an ocean of knowledge - vast and in-depth and he possesses a gifted skill of passing it on!

It's been 6 years since I attended his classes and his examples and concepts are still as fresh in my mind. He has the ability to keep his students engrossed while he teaches.

His amazing sense of humour eases out the tension amongst students and makes us fall in love with the subject.

His journey of pursuing CA, CS, CMA and his passion for teaching is truly inspirational and motivates me to carve a niche and make a difference. I miss your class.....

AIR 3
Anisha Raheja

Thank you doesn't adequately express my gratitude for the lessons learnt from Suraj Sir in class.

The rich engagement and passion he has for the subjects he teaches acts like a springboard and motivating factor for his students.

His unconventional teaching methods bring alive the most boring concepts.

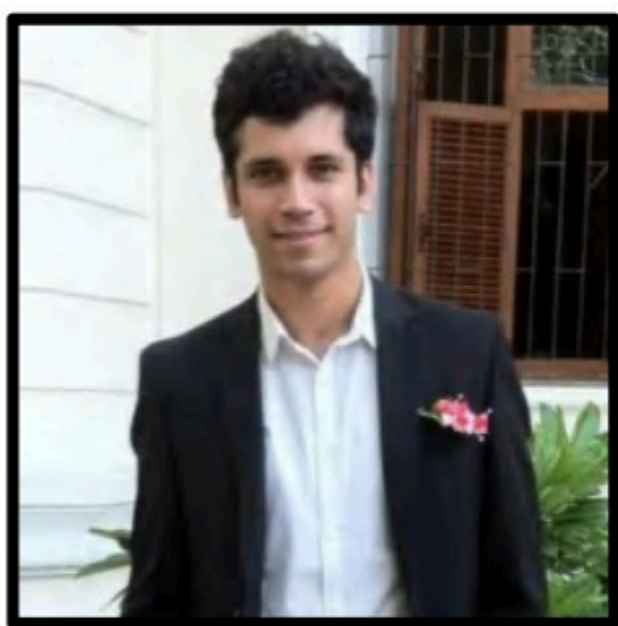

Though it has been few years passed by that I have attended his class, but a few of the motivating things he has said and lessons taught during class is ingrained in me, even today!

AIR 5
Payal Solanki

Suraj Sir's command over the subject he teaches and his teaching techniques are an exact combination a student needs to excel in the subject.

He just made a subject like Costing so easy for us, that I couldn't ask for anything more from a faculty! Sir has been a rich & constant source of inspiration and knowledge to us! Kudos!

AIR 7
Mayur Jaisingh

Suraj sir encouraged us to question and dwell deeper into a concept instead of mechanically accepting and following it.

Our modules just gave the formulas but Suraj sir broke it down and derived the formulas in class.

Sir made sure to repeat the concepts and ensured that it was understood by all. Sir used practical real-life examples to help us recall a particular concept so we didn't have to memorise as such.

Sir's approach of teaching by questioning and arriving at conceptual clarity has helped me prepare not just for exams but also life outside academics. This is the best way to prepare. Eternally grateful.

Thank you!

I was a student at SGT Professional Academy for 4 years (11th, 12th, CA Foundation and Inter) and it was one of most beautiful experiences of my life, the four years went past so quickly that I didn't even realise.

The faculty and peers have helped me a lot throughout these four years. The teaching methods are so good that the concepts stay with you forever. Highly recommended for anyone looking a bright career in commerce.

I was a student at SGT Professional Academy for 4 years (11th, 12th, CA Foundation and Inter) and it was one of most beautiful experiences of my life, the four years went past so quickly that I didn't even realise. The faculty and peers have helped me a lot throughout these four years. The teaching methods are so good that the concepts stay with you forever.

Highly recommended for anyone looking a bright career in commerce.

Being part of the SGT professional academy family has been a wonderful experience for me personally and its all because of the patient, trustworthy and passionate teachers who put in all the efforts possible to help their students excel in what they do.

In the three years that I have been at the academy I haven't only gained knowledge in the academic field but also learnt some valuable lessons about how to deal with situations in life. I would like to thank all the teachers and support staff for all their conscious efforts.
